Bio

BIO

Jenna Reisler, MD is an Internal Medicine-trained Clinical Informatics Fellow passionate about designing clinical decision support tools that reduce clinician burden and improve patient outcomes. Her work spans CDS for falls prevention, human-centered EHR workflow design, and quality improvement in ambulatory care and inpatient settings. Recent projects include a co-investigator role on an EPIC-based falls prevention CDS tool published in Applied Clinical Informatics, and co-PI of an ACGME Back to Bedside–funded home visit program integrating social determinants of health into residency training.
