#### BIO

Dr. Hopper is a Clinical Professor in the Division of Pediatric Cardiology in the Department of Pediatrics and Director of the Pediatric Pulmonary Vascular Disease Program in the Children's Heart Center and Vera Moulton Wall Center for Pulmonary Vascular Disease at Stanford.

Dr. Hopper's clinical responsibilities are focused on the inpatient and outpatient care of children with pulmonary hypertension. She has a specific interest in pulmonary hypertension associated with prematurity and co-directs the multidisciplinary Cardiac and Respiratory care for Infants with Bronchopulmonary Dysplasia (CRIB) Program. She also works with the Pediatric Lung and Heart-Lung transplant program and co-directs the Center for Advanced Lung therapies (CEAL). She is also part of the Hereditary Hemorrhagic Telangiectasia (HHT) program at Stanford.

Additionally, Dr. Hopper pursues clinical and translational research in the area of pulmonary hypertension in children, both locally and in collaboration with national and international colleagues. She is a member of the Scientific Leadership Council of the Pulmonary Hypertension Association, and an active member in the Pediatric Pulmonary Hypertension Network (PPHNet) and Pediatric Task Force of the Pulmonary Vascular Research Institute (PVRI).
