Bio

BIO

Shaun Karakkattu is a Forbes 30 Under 30 honoree and the co-founder and COO of Atlog (Y Combinator X25), a startup building AI voice agents for physical retail. He is also chairman of Tomorrow In Focus, a nonprofit using AI to make climate storytelling accessible, and produced Imagine Land 2040, the first AI-driven film made for the United Nations. He studied Economics and History at Vanderbilt University as a Cornelius Vanderbilt Scholar.
