Affiliate, Medicine - Primary Care and Population Health

## Bio

### BIO

Tanvir is currently a postdoctoral scholar at the Geldsetzer Lab, led by Dr. Pascal Geldsetzer. He completed his doctoral studies at the Faculty of Business and Economics, TU Dortmund, Germany, under the supervision of Prof. Carsten Jentsch, and is currently working with the team to apply causal inference and econometric methods to dementia research. His research interests lie at the intersection of Causal Inference, Econometrics, and Machine Learning.
