Bio

BIO

Jayson Marwaha, MD, MSc is an Assistant Professor of Surgery at Stanford University. He obtained his MD degree at Brown University, completed his general surgery training at Georgetown University, and a fellowship in minimally invasive surgery at the University of Michigan. During his surgical residency he completed a Masters in Biomedical Informatics and an NIH-funded postdoctoral fellowship in surgical AI at Harvard Medical School. In his faculty position at Stanford, his clinical focus is on minimally invasive techniques for abdominal wall reconstruction, and his research focuses on measuring & improving collaboration between surgeons and AI in the operating room.
