Stanford

Yan He

Postdoctoral Scholar, Infectious Diseases

Bio

BIO

I am an air quality and environmental health researcher with experience in field monitoring, exposure assessment, and spatial analysis. My research focuses on characterizing air pollution across communities, identifying potential sources, and improving our understanding of environmental exposures.

PROFESSIONAL EDUCATION

- PhD, Washington University in St. Louis , Energy, Environmental, and Chemical Engineering (2026)
- MSE, Johns Hopkins University , Geography and Environmental Engineering (2019)
- BS, Chongqing University , Environmental Engineering (2018)

STANFORD ADVISORS

- Stephen Luby, Postdoctoral Faculty Sponsor
