Bio

BIO

Joel Koh is the Chief Technology Officer at One X Group, an AI and software company that designs and builds AI systems for businesses. With over a decade of experience at the intersection of technology and business transformation, he works with organizations to translate AI capabilities into practical, business-ready solutions.

Leveraging his technical and strategic background, Joel provides hands-on guidance in areas such as AI strategy development, software implementation, systems design, and technology adoption. His experience across large, complex organizations enables him to offer grounded, execution-focused advice that bridges the gap between emerging technology and real business needs.

He is also a Member of Technical Staff & AI Researcher at Stanford University's ARISE (AI Research and Science Evaluation) lab in San Francisco, California, where he works directly with leading AI labs including OpenAI, Google DeepMind, and Anthropic, contributing to independent research benchmarking frontier AI systems and evaluating their real-world performance against clinical and scientific reasoning standards.
