Stanford

Milena Tsvetkova

Fellow, Center for Advanced Study in the Behavioral Sciences

Bio

BIO

Milena Tsvetkova is Associate Professor of Computational Social Science at the Department of Methodology at the London School of Economics and Political Science and external faculty at the Complexity Science Hub in Vienna, Austria. She is the director of the HUMANET lab, funded by an ERC Consolidator grant with €2,000,000 in 2025–2030 to investigate interactions and collective outcomes in human-machine social systems. Milena holds a PhD in sociology from Cornell University. Her research combines online experiments, network analysis, machine learning, and computational modeling to study cooperation, contagion, segregation, and inequality in human and human-machine groups, networks, and communities. Milena's work has been published in sociology, computer science, and general science journals and recognized with the Raymond Boudon Award for Early Career Achievement by the European Academy of Sociology. In 2026-27, Milena is visiting the Center for Advanced Study in the Behavioral Sciences at Stanford University as a Fellow.
