  500 Pasteur Dr
  Stanford, CA 94305
  Tel (650) 723-4000 **Fax** (650) 736-5558

Bio

BIO

Dr. Sejal Tyle Hathi is a board-certified internist and public health leader who has led health agencies at the state and federal level. She practices hospital medicine at Stanford Hospital, caring for acutely and chronically ill adults from admission through discharge.

As Senior Policy Advisor for Public Health at the Biden White House, she led presidential priorities across mental health, climate and health, public health preparedness, and health care supply chains. As New Jersey's State Health Officer and Deputy Commissioner of Health, she oversaw public health services for the nation's eleventh-largest state. Most recently, as Director of the Oregon Health Authority, unanimously confirmed by the state Senate, she led more than 5,500 employees and a $20 billion annual portfolio spanning Medicaid, public health, behavioral health, and health care policy and regulation. She has also held joint faculty appointments as an assistant professor of medicine at the Johns Hopkins School of Medicine and Bloomberg School of Public Health. Earlier in her career, she founded and led two global social enterprises that mobilized more than 30,000 young women changemakers across six continents.

Dr. Hathi grew up in Fremont, California, and received her B.S. with honors from Yale University and her M.D./M.B.A. from Stanford University, where she studied as a Harry S. Truman Scholar and Paul & Daisy Soros Fellow. She completed her clinical training in internal medicine and primary care at Massachusetts General Hospital and Harvard Medical School, where she was named to the National Minority Quality Forum's "40 Under 40" Leaders in Health.
