CURRENT ROLE AT STANFORD

I catalog digital materials (CD-ROMs, online monographs, websites, databases, video games, etc.) as well as videos, spoken word sound recordings, and general oddball stuff. If you can show it to me, i can catalog it! I also serve as a metadata consultant for digital projects. I have expertise in MARC, MODS, RDA, AACR2, Library of Congress Subject Headings, Library of Congress Classification, and an interest in the application of linked data to library metadata practices and infrastructure.
