Affiliate, Materials Science and Engineering

Bio

BIO

Luis has been a technology transfer professional at Stanford for over 30 years. He is a volunteer for Climate Donor, Inc. a non-profit that helps fund climate change and species extinction mitigation projects. Prior to joining Stanford he worked on solar energy systems and energy management at Honeywell and Pacific Gas & Electric. He has a degree in Energy Systems Engineering from Arizona State University, is a Fellow of the Disruptor Foundation and is a recipient of an award for Excellence in Technology Transfer from the Department of Energy, Federal Laboratory Consortium.
