Professor (Research) of Medicine (Stanford Prevention Research Center),
Emerita

Medicine - Med/Stanford Prevention Research Center

Bio

BIO

Marilyn Winkleby, MPH, Ph.D., is Professor of Medicine, emerita at the Stanford Prevention Research Center. Since completing her doctorate at UC Berkeley's School of Public Health she has led a population health science research group at Stanford that combines epidemiologic study with intervention research to further the understanding of social determinants of health. She has received substantial funding from NIH and has published over 200 articles in scientific journals. She is known for her community partnerships, including her 15-year collaboration with the Monterey County Health Department and 20-year collaboration with Lund University in Sweden. The breadth of her scientific work has had an international impact on improving the health of medically underserved populations. Her research is congruent with a number of public service activities, including the Stanford Medical Youth Science Program, an organization that she co-founded in 1988 that has helped prepare over 750 high school students historically underrepresented in higher education for science and health careers. In 2011, this program received the Presidential Award for Excellence in Science, Mathematics, and Engineering Mentoring, the highest honor bestowed by the U.S. government for mentoring in these fields.

ACADEMIC APPOINTMENTS

- Emeritus Faculty, Acad Council, Medicine - Med/Stanford Prevention Research Center

ADMINISTRATIVE APPOINTMENTS

- Medical School Admissions Faculty Panel, Stanford University School of Medicine, (2001-2021)
- Advisory Member, Office Science Outreach Program, Stanford University, (2003-2011)
- Executive Advisory Committee, Office of Faculty Development and Diversity, Stanford University School of Medicine, (2005-2008)
- Faculty Director, Office of Community Health, Stanford University School of Medicine, (2005-2017)
- Faculty Member, Stanford Cardiovascular Institute, (2006-2015)
- Visiting Professor, Center for Primary Health Care Research, Lund University, Malmö, Sweden, (2009-2022)
- Population Health Science Initiative Implementation Committee, Stanford School of Medicine, (2011-2016)
- Faculty Advisory Committee, Stanford Precollegiate Studies, (2012-2021)
- Professor, Courtesy Appointment, Oregon State University, Cascades, (2024-2025)

HONORS AND AWARDS

- Berkeley School of Public Health, 75th Anniversary, 1 of 75 most influential alumni, University of California, Berkeley (2018)
- Dr. Augustus White III & Family Faculty Professionalism Award, Research on Health Disparities, Stanford University School of Medicine, Office of Diversity and Leadership (2011)
- U.S. Presidential Award for Science Mentoring, National Science Foundation (2011)

- Athena Award, Outstanding Woman Leader of the Year, City of Palo Alto (2008)
- Judith Poole Award, Exceptional Woman Scientist, Northern California Chapters of the Association for Women in Science (2008)
- National HOPE Award (Helping Other People Through Empowerment), American Journal of Health Promotion, Significant Achievement in Health Promotion (2007)
- Miriam Aaron Roland Volunteer Service Prize, Integrating Students in Academic Scholarship, Haas Center for Public Service, Stanford University (2005)
- Stanford Divisional Award for Exceptional Contributions to Education, Stanford Prevention Research Center, Stanford University School of Medicine (2004)
- Fellow, American College of Epidemiology (1998)
- Fellow, American Heart Association (Council on Epidemiology and Prevention) (1995)

BOARDS, ADVISORY COMMITTEES, PROFESSIONAL ORGANIZATIONS

- Board of Directors Member, NextGenU (2022 - present)
- National Scientific Advisory Board, UCLA Center for Population Health and Health Disparities (2010 - 2013)
- Robert Wood Johnson Senior Investigator, Network for Multicultural Research on Health and Health Care, UCLA, (2008 - 2010)

PROFESSIONAL EDUCATION

- Ph.D., University of California, Berkeley , Epidemiology (1986)
- M.P.H., University of California, Berkeley , Public Health (1983)
- M.A., California State University, Sacramento , Clinical Psychology (1974)
- B.A., California State University, Sacramento , Social Science (1968)

COMMUNITY AND INTERNATIONAL WORK

- 2013-2024, Board of Directors, Hope's Corner Family Resource Center, Mountain View
- 2016-2021 Board of Directors, MayView Community Health Clinics, Palo Alto, Mountain View, Sunnyvale
- 2012-2021 - El Camino Hospital Community Benefit Advisory Council
- 2002-present - NIH scientific collaboration, Lund University, Sweden
- 1988-2016 - Monterey County Health Department: University/Health Department Collaboration, Salinas, CA
- 1995-2004 - Board of Directors, Santa Clara County, Emergency Housing Consortium, San Jose, CA
- 1993-1998 - Advisory Council, Loaves and Fishes Family Kitchen, San Jose, CA
- 1992-1994 - Board of Directors, Mountain View Community Health Clinic, Mountain View, CA
- 1988-1992 - Board of Directors, Loaves and Fishes Family Kitchen, San Jose, CA

Research & Scholarship

CURRENT RESEARCH AND SCHOLARLY INTERESTS

My work focuses on the health of low-income and medically underserved populations. A number of grants from NIH and other Federal and State agencies have supported my work which has a broad public health focus. A central feature of my work has been the combination of theoretical and scientific input with practical input from the community to understand behavioral, social, cultural, and economic determinants of health behaviors that

are amenable to change. My work covers: cancer and cardiovascular disease health behaviors, risk factors, and outcomes (smoking, physical inactivity, poor nutrition, obesity, diabetes, hypertension); health status of ethnic minority and low socioeconomic groups; community-based intervention studies; and neighborhood influences on health. I have had a long term working partnership with the Monterey County Health Department. For the last 20 years I have had a research partnership with Drs. Jan and Kristina Sundquist at Lund University in Sweden where we have been funded by numerous NIH RO1 grants to conduct population-based clinical epidemiologic research.

My research is congruent with a number of public service activities, including the Stanford Medical Youth Science Program, an organization that I co-founded in 1988 that prepares high school students historically underrepresented in higher education for science and health careers. In 2011, this program received the Presidential Award for Excellence in Science, Mathematics, and Engineering Mentoring, the highest honor bestowed by the U.S. government for mentoring in these fields. It is sustained and housed in the Office of Diversity in Medical Education, School of Medicine.
