Steroid hormones act by binding to intracellular receptors that regulate the expression of specific genes in target cells. My group is studying a number of aspects that relate molecular and cellular events of hormone action at the receptor level to clinically relevant questions. Some of the current projects are as follows:

1. Investigation of the role of vitamin D as a differentiating and antiproliferative agent with the potential to affect malignancy, specifically to benefit breast and prostate cancer.

2. Studies of the metabolic effects of obesity to cause increased risk and worse prognosis in breast cancer in mouse models and in patients with breast cancer. Study of whether vitamin D can reduce the risk and/or improve the likelihood of a better outcome.

3. Study vitamin D action on cancer in cultured cells, in mouse models of cancer and in trials in patients with breast cancer.

4. Analysis of the endocrinologic and molecular mechanisms regulating vitamin D receptor expression and action thereby modulating target organ responsiveness to the actions of vitamin D and its analogs.

5. Elucidation of the molecular basis of hereditary vitamin D resistant rickets, a genetic disease due to mutations in the vitamin D receptor.
CLINICAL TRIALS

- A Phase II Trial of Calcitriol and Naproxen in Patients With Recurrent Prostate Cancer, Not Recruiting
- Calcitriol or Placebo in Men for Prostate Cancer Active Surveillance, Not Recruiting
- Development of Vitamin D as a Therapy for Breast Cancer - Phase 2, Not Recruiting
- Vitamin D and Breast Cancer: Does Weight Make a Difference?, Not Recruiting

  1973; 92 (4): 994-1004

• GLUCOCORTICOID RECEPTORS IN RAT-KIDNEY - BINDING OF TRITIATED-DEXAMETHASONE  *ENDOCRINOLOGY*
  Funder, J. W., Feldman, D., Edelman, I. S.
  1973; 92 (4): 1005-1013

• EVIDENCE FOR A NEW CLASS OF CORTICOSTERONE RECEPTORS IN RAT-KIDNEY  *ENDOCRINOLOGY*
  Feldman, D., Funder, J. W., Edelman, I. S.
  1973; 92 (5): 1429-1441

• BINDING OF 18-HYDROXYDEOXYCORTICOSTERONE AND 18-HYDROXYCORTICOSTERONE TO MINERALOCORTICOID AND GLUCOCORTICOID RECEPTORS IN RAT-KIDNEY  *ENDOCRINOLOGY*
  Feldman, D., Funder, J. W.
  1973; 92 (5): 1389-1396

• SPECIFIC ALDOSTERONE BINDING IN RAT-KIDNEY AND PAROTID  *JOURNAL OF STEROID BIOCHEMISTRY*
  Funder, J. W., Feldman, D., Edelman, I. S.
  1972; 3 (2): 209-?

• SUBCELLULAR MECHANISMS IN ACTION OF ADRENAL STEROIDS  *AMERICAN JOURNAL OF MEDICINE*
  Feldman, D., Edelman, I. S., Funder, J. W.
  1972; 53 (5): 545-?
