### Bio

#### BIO

Alia is a Research Development Specialist for the Stanford Research Development Office under VPDOR. Her background experience spans academia, government, and industry, and is built around alternative energy, climate and sustainability. She has worked directly with policy makers in California in both the legislative and regulatory arenas to further the state's ambitious climate and energy goals and has prepared successful applications for funding from a variety of agencies at the state and national level. In her role at the RDO, Alia supports faculty teams from across the University, with a focus on large, collaborative research proposals in the STEM fields and a particular emphasis on climate & sustainability research.

#### HONORS AND AWARDS

- Science Policy Fellow, California Council on Science & Technology
- R. Goldman Memorial Scholar, Achievement Rewards for College Scientists Foundation (ARCS)
- Graduate Student Gold Award, Materials Research Society
- Apprentice Science Reporter Award, Materials Research Society/NSF ICMR
- Bio-X PhD Fellow, Stanford University

#### EDUCATION AND CERTIFICATIONS

- Ph.D., Stanford University , Materials Science & Engineering (2013)
- M.S., Stanford University , Biological Sciences (2006)
- B.A., Northwestern University , Integrated Science Program (2003)
