Bio

BIO

Dr Nilima Ragavan is a Neonatologist and Clinical Professor at the Stanford University School of Medicine. She is an experienced clinician who has expertise in the care of critically ill newborns. She is the Neonatal Outreach Medical director for Stanford Children's health, Co director of the Mid Coastal California Perinatal Outreach Program, and the Medical director of the Special care Nursery at Stanford Children's Health. She serves as a mentor to junior faculty. Dr Ragavan is passionate about education, and social justice. She has worked in and promoted social organizations in the fields of education, health care, livelihood and women's empowerment in India. She founded a group called Teach to Heal to promote cross cultural education and has led several multidisciplinary medical teams to India, as well as organized and conducted international neonatal and perinatal conferences.
