Stanford

Ashby Monk

Senior Res Engineer, Center for Sustainable Development and Global Competitiveness

Bio

BIO

Dr. Ashby Monk is currently a Senior Research Engineer, School of Engineering at Stanford University, and holds the position of Executive Director of the Stanford Research Initiative on Long-Term Investing.

Ashby has more than 20 years of experience studying and advising investment organizations. He has authored multiple books and published 100s of research papers on institutional investing. His latest book, The Technologized Investor, won the 2021 Silver Medal from the Axiom Business Book Awards in the Business Technology category.

Outside of academia, he has co-founded several companies that help investors make better investment decisions, including Real Capital Innovation (acquired by Addepar), FutureProof, NetPurpose, D.A.T.A., ThirdAct, Growthsphere, SheltonAI and Long Game Savings (acquired by Truist). He is also a member of the CFA Institute's Future of Finance Advisory Council and was named by CIO Magazine as one of the most influential academics in the institutional investing world.

Ashby received his Doctorate in Economic Geography at the University of Oxford, holds a Master's in International Economics from the Université de Paris I - Pantheon Sorbonne, and has a Bachelor's in Economics from Princeton University
