Bio

BIO

Rob Jackson and his lab examine the many ways people affect the Earth. They produce basic scientific knowledge and use it to help shape policies and reduce the environmental footprint of global warming, energy extraction, and other environmental issues. They're currently examining the effects of climate change and drought on old-growth forests. They are also working to measure and reduce greenhouse gas emissions through the Global Carbon Project (globalcarbonproject.org), which Jackson chairs. Examples of new research Rob leads include establishing a global network of methane tower measurements across the Amazon and more than 100 sites worldwide and measuring and reducing methane emissions and air pollution from oil and gas wells, city streets, and homes and buildings.

Rob's new book on climate solutions, *Into the Clear Blue Sky* (Scribner and Penguin Random House), was named a "Top Science Book of 2024" by *The Times*. As an author and photographer, Rob has published a previous trade book about the environment (*The Earth Remains Forever*, University of Texas Press), two books of children's poems, *Animal Mischief* and *Weekend Mischief* (*Highlights Magazine* and *Boyd's Mills Press*), and recent or forthcoming poems in the journals *Southwest Review*, *Cortland Review*, *Cold Mountain Review*, *Atlanta Review*, *LitHub*, and more. His photographs have appeared in many media outlets, including the *NY Times*, *Washington Post*, *USA Today*, *US News and World Report*, *Science*, *Nature*, and *National Geographic News*.

Rob won this year's Blue Planet Prize and is a recent Djerassi artist in residence, Guggenheim Fellow, and sabbatical visitor in the Center for Advanced Study in the Behavioral Sciences. He is also a Fellow in the American Academy of Arts and Sciences, American Association for the Advancement of Science, American Geophysical Union, and Ecological Society of America. He received a Presidential Early Career Award in Science and Engineering from the National Science Foundation, awarded at the White House.
