BIO

Jeremy Goldbogen is an Associate Professor of Oceans at Stanford University, based at the Hopkins Marine Station in Pacific Grove, California. He is a comparative physiologist who studies the integrative biology of marine organisms, with a particular focus on the feeding biomechanics, energetics, and foraging ecology of baleen whales.

Goldbogen received his B.S. in Zoology from the University of Texas at Austin, where he began his research career studying the biomechanics of locomotion in hummingbirds and Antarctic pteropods. He earned his M.S. in Marine Biology from Scripps Institution of Oceanography and his Ph.D. in Zoology from the University of British Columbia, where his dissertation on the mechanics and energetics of rorqual lunge feeding earned him the Governor General's Gold Medal—UBC's most outstanding PhD award. Following postdoctoral positions at Scripps and the Cascadia Research Collective, he joined Stanford's faculty in 2014.

His research program uses cutting-edge bio-logging technology—animal-attached sensors including accelerometers, video cameras, and echosounders—to study the behavior and physiology of marine megafauna in their natural environment. His lab has made groundbreaking discoveries about whale feeding mechanics, cardiovascular function, and the ecological consequences of body size in cetaceans. Notable achievements include the first recordings of a blue whale's heart rate and insights into why whales are big but not bigger.

ACADEMIC APPOINTMENTS

- Associate Professor, Oceans
- Member, Bio-X

HONORS AND AWARDS

- Terman Fellowship, Stanford University (2017-2020)
- Young Investigator Award, Office of Naval Research (2016-2020)
- Hoagland Award for Teaching Innovation, Vice Provost for Undergraduate Education, Humanities and Sciences Dean's Office, Stanford University (2015)

PROFESSIONAL EDUCATION

- BSc, University of Texas at Austin , Zoology (2002)
- MSc, Scripps Institution of Oceanography, University of California - San Diego , Marine Biology (2005)
- PhD, University of British Columbia , Zoology (2010)
