Stanford

Khoi Huynh

Program Support Associate, Woods Research Natural Capital Project

Bio

BIO

Khoi Huynh (he/him) is a program support associate with the Natural Capital Alliance and previously worked for Stanford's Department of Physics for many years. Born in Vietnam, he grew up in rural Michigan and earned his BA from Michigan State University. A birder since childhood, he is enthusiastic about environmental protection, sustainability and appreciation for the natural world. He's also a longtime musician, performing and recording with numerous bands, one of which is the house band for Lindsay Wildlife Experience's annual celebration of Lord Richard, the world's oldest turkey vulture.
