Chenchen Song
Ph.D. Student in Chemistry, admitted Autumn 2012

Publications

PUBLICATIONS

- Atomic orbital-based SOS-MP2 with tensor hypercontraction. II. Local tensor hypercontraction. *journal of chemical physics*
  Song, C., Martínez, T. J.
  2017; 146 (3): 034104-

- Geometry optimization made simple with translation and rotation coordinates *JOURNAL OF CHEMICAL PHYSICS*
  Wang, L., Song, C.
  2016; 144 (21)

- Atomic orbital-based SOS-MP2 with tensor hypercontraction. I. GPU-based tensor construction and exploiting sparsity *JOURNAL OF CHEMICAL PHYSICS*
  Song, C., Martínez, T. J.
  2016; 144 (17)

- Automated Code Engine for Graphical Processing Units: Application to the Effective Core Potential Integrals and Gradients *JOURNAL OF CHEMICAL THEORY AND COMPUTATION*
  Song, C., Wang, L., Martinez, T. J.
  2016; 12 (1): 92-106

- Efficient implementation of effective core potential integrals and gradients on graphical processing units *JOURNAL OF CHEMICAL PHYSICS*
  Song, C., Wang, L., Sachse, T., Preiss, J., Presselt, M., Martinez, T. J.
  2015; 143 (1)

- Analytic first derivatives of floating occupation molecular orbital-complete active space configuration interaction on graphical processing units. *journal of chemical physics*
  Hohenstein, E. G., Bouduban, M. E., Song, C., Luehr, N., Ufimtsev, I. S., Martínez, T. J.
  2015; 143 (1): 014111-?
