Bio

BIO

Dr. Sidell is a Professor of Otolaryngology–Head and Neck Surgery at Stanford University Medical Center and a member of the Division of Pediatric Otolaryngology. He holds courtesy appointments in the Department of Pediatrics and the Division of Cardiology. His surgical practice focuses on the management of children with complex airway and pulmonary disorders, with particular expertise in complex and revision airway reconstruction. His clinical interests also include pediatric voice and swallowing disorders, as well as congenital and acquired abnormalities of the larynx and trachea. He serves as Director of the Pediatric Aerodigestive Center and the Pediatric Voice and Swallowing Clinics at Lucile Packard Children's Hospital Stanford.

Dr. Sidell received his medical degree from The George Washington University School of Medicine and completed his internship and residency in Head and Neck Surgery at the University of California, Los Angeles. He subsequently completed fellowship training in Pediatric Otolaryngology, with a focus on airway reconstruction, at Cincinnati Children's Hospital Medical Center.

Dr. Sidell has authored or co-authored more than 100 peer-reviewed articles and abstracts published in leading medical journals. He has authored and edited an atlas of airway reconstruction and contributed to multiple foundational textbooks in his field. He is board-certified by the American Board of Otolaryngology–Head and Neck Surgery, with subspecialty certification in Complex Pediatric Otolaryngology, and is a Fellow of the American College of Surgeons and the American Academy of Pediatrics. He is an active member of numerous professional organizations, including the Stanford Maternal and Child Health Research Institute, the American Academy of Otolaryngology–Head and Neck Surgery, the American Broncho-Esophagological Association, and the American Society of Pediatric Otolaryngology. In addition to his academic and clinical roles, he has held multiple leadership positions at Lucile Packard Children's Hospital Stanford, including Vice President and President of the Medical Staff.

CLINICAL FOCUS

- Airway and Aerodigestive Disorders

- Airway Reconstruction
- Pediatric Voice Disorders
- Pediatric Swallowing Disorders
- Pediatric Otolaryngology

ACADEMIC APPOINTMENTS

- Professor-Univ Med Line, Otolaryngology (Head and Neck Surgery)
- Professor-Univ Med Line (By courtesy), Pediatrics - Cardiology
- Member, Maternal & Child Health Research Institute (MCHRI)

ADMINISTRATIVE APPOINTMENTS

- President of the Medical Staff/Chief of Staff, Lucile Packard Childrens Hospital Stanford Medical Staff; Stanford Children's Health, (2024-2026)
- Vice President/Vice Chief of Staff, Lucile Packard Children's Hospital Medical Staff, (2022-2024)
- Director, Pediatric Aerodigestive Clinic, (2014- present)
- Director, Pediatric Voice and Swallowing Clinic, (2014- present)

HONORS AND AWARDS

- Distinction of Honor, Bachelor of Science, Marine Biology University of California, Santa Cruz (2002)
- Goddard Prize in Pharmacology, George Washington University School of Medicine and Health Sciences (2004)
- Alpha Omega Alpha Honors Society, The George Washington University School of Medicine and Health Sciences (2006)
- Distinction of Honor, Medical Doctor The George Washington University School of Medicine and Health Sciences. (2007)
- Triological Society Annual Meeting Award, Triological Society (2007)
- Triological Society Resident Travel Award, Triological Society (2008)
- AAO-HNSF Resident Leadership Grant, American Academy of Otolaryngology-Head and Neck Surgery (2010)
- Best Research Presentation Award, American College of Surgeons (2011)
- Teacher of the Year, University of California, Los Angeles; Department of Head and Neck Surgery (2012)
- Ellen M. Friedman Foreign Body Management Award, ABEA (2017)
- Robert Howard Next Step Award, GFIT Biodesign (2018)

BOARDS, ADVISORY COMMITTEES, PROFESSIONAL ORGANIZATIONS

- Member, Alpha Omega Alpha Honors Society (2007 - present)
- Member, American Academy of Otolaryngology-Head and Neck Surgery (2010 - present)
- Member, American Society of Pediatric Otolaryngology (2014 - present)
- Fellow, American Academy of Pediatrics (2016 - present)
- Member, International Pediatric Otolaryngology Group (IPOG) (2016 - present)
- Fellow, American College of Surgeons (2017 - present)
- Member, American Bronco-Esophagological Association (2017 - present)
- Executive Committee Member, Aerodigestive Research Consortium (2018 - present)
- Member, Otolaryngology Representative-elect, Aerodigestive Research Society (2018 - present)
- Candidate Member, Triological Society (2019 - present)

PROFESSIONAL EDUCATION

- Internship: UCLA David Geffen School Of Medicine (2008) CA
- Board Certification: Complex Pediatric Otolaryngology, American Board of Otolaryngology (2021)
- Complex Pediatric Otolaryngology, American board of otolaryngology, head and neck surgery , Board Certification (2021)
- Residency: UCLA General Surgery Residency (2012) CA
- Fellowship: Cincinnati Children's Medical Center (2014) OH
- Board Certification: Otolaryngology, American Board of Otolaryngology (2013)
- Medical Education: George Washington University Medical School (2007) DC
- Fellowship, Cincinnati Children's Hospital Medical Center , Pediatric Otolaryngology-Head and Neck Surgery (2014)
- Board Certification, The American Board of Otolaryngology , Otolaryngology--Head and Neck Surgery (2013)
- Residency, The University of California Los Angeles , Head and Neck Surgery (2012)
- Internship, The University of California Los Angeles , Surgery (2008)
- MD, The George Washington University School of Medicine and Health Sciences , Medicine (2007)

Research & Scholarship

CURRENT RESEARCH AND SCHOLARLY INTERESTS

Dr. Sidell's clinical interests include the management of children with voice and swallowing disorders, and congenital or acquired airway abnormalities. Examples of ongoing or upcoming prospective trials include an investigation into the utility of acid suppression in children with laryngomalacia, the management of vocal cord paralysis following cardiac surgery, and the management of type 1 laryngeal clefts in children. Additional interests include novel material applications in laryngotracheal reconstruction.

He has a strong interest in multi-institutional collaboration, and an open-door policy for discussing research concepts that may culminate in enhanced care for children.

CLINICAL TRIALS

- In Infants With Laryngomalacia, Does Acid-Blocking Medication Improve Respiratory Symptoms?, Not Specified
- Stanford Program to Accelerate Robotic Children's Surgery, Not Specified

Teaching

GRADUATE AND FELLOWSHIP PROGRAM AFFILIATIONS

- Pediatric Otolaryngology (Fellowship Program)
