Dr. Miner is an AI psychologist, who uses experimental and observational studies to improve the ability to conversational artificial intelligence (AI) to recognize and respond to health issues. He completed a postdoctoral fellowship at Stanford's Clinical Excellence Research Center (CERC) before joining the Department of Psychiatry as an Instructor and being awarded a Mentored Career Development Award (KL2) through Spectrum and the NIH.

Dr. Miner is the Co-Director of the Virtual Reality & Immersive Technology Clinic, Dept of Psychiatry and Behavioral Sciences, where he provides treatment and supervision.
