Bio

Dr. Miner is an AI psychologist, who uses experimental and observational studies to improve the ability to conversational artificial intelligence (AI) to recognize and respond to health issues. He completed a postdoctoral fellowship at Stanford's Clinical Excellence Research Center (CERC) before joining the Department of Psychiatry as an Instructor and being awarded a Mentored Career Development Award (KL2) through Spectrum and the NIH.

Dr. Miner is the Co-Director of the Virtual Reality & Immersive Technology Clinic, Dept of Psychiatry and Behavioral Sciences, where he provides treatment and supervision.
