Dr. Miner is a licensed clinical psychologist and epidemiologist. He uses experimental and observational studies to improve the ability of conversational artificial intelligence (AI) to recognize and respond to health issues.

He completed a postdoctoral fellowship at Stanford’s Clinical Excellence Research Center (CERC) before joining the Department of Psychiatry as an Instructor and being awarded a Mentored Career Development Award (KL2) through Spectrum and the NIH. He completed a Masters in Epidemiology and Clinical Research from Stanford Department of of Epidemiology and Population Health.

Dr. Miner conducts translational research often at the intersection of computer science and medicine.
