Bio

BIO

Dr. Gina Kwon is a board certified dermatologist specializing in comprehensive dermatologic care covering skin cancer treatment and prevention, evaluation of moles and skin growths, actinic keratosis, warts, acne, rosacea, eczema, psoriasis, rashes, and contact dermatitis.

Dr. Kwon received her Bachelors of Science in Biology from Brown University where she graduated Magna Cum Laude and then received her medical degree at Stanford University. After medical school, Dr. Kwon completed an internship in Medicine at Mercy Medical Center in Baltimore before completing her dermatology residency at the University of Washington in Seattle. She completed the last year of her residency at Stanford as a research fellow and clinical resident where she studied new ways to prevent and treat basal cell carcinomas.
