

Colleen Mills-Finnerty

Affiliate, Psychiatry and Behavioral Sciences

Bio

BIO

Dr. Mills-Finnerty received her PhD in Psychology from Rutgers University, with a focus on cognitive neuroscience. She completed a MIRECC Advanced Fellowship at the Palo Alto VA and Stanford Dept. Psychiatry and Behavioral Sciences, studying mood disorders using neuroimaging and neurostimulation. She was then awarded a VA Career Development Award to study attention and reward function in mood disorders. She joined the Women's Operational Military Exposures Network as a Research Scientist in 2024. She is interested in health disparities that impact neurological and mental health in women Veterans, and their relationship to Military Environmental Exposures.

She has authored multiple award-winning papers, including "Affective Neuroscience: Applications for Sexual Medicine Research and Clinical Practice," proposing a novel treatment schema for sexual trauma based on affective neuroscience, which was awarded the Bronze Prize for Best Paper by the International Society for Sexual Medicine.
