Kaz Gunning is a Ph.D. candidate in the GPS Research Laboratory working under the guidance of Professor Per Enge and Dr. Todd Walter in the Department of Aeronautics and Astronautics at Stanford University. Prior to joining the lab in fall 2015 as a Ph.D. candidate, Kaz worked for Booz Allen Hamilton on the GPS Systems Engineering and Integration group doing Modeling and Simulation of the next generation GPS Control Segment and software-defined receiver work looking at the GPS III waveform. He also has a B.S. and an M.S. from Stanford University in Aeronautics and Astronautics.
