Bio

BIO

Dr. Enemchukwu, MD, MPH, FACS, URPS, is a surgeon-scientist and Associate Professor of Urology at Stanford University School of Medicine, where she serves as Director of Urology at the Multidisciplinary Pelvic Health Center. She is double board certified in Urology and in Urogynecology and Reconstructive Pelvic Surgery (URPS), and specializes in the management of pelvic organ prolapse, urinary incontinence, overactive bladder, and complex pelvic floor disorders.

A graduate of Duke University, Dr. Enemchukwu earned her MD and MPH from the University of North Carolina at Chapel Hill and completed her Urology residency at Vanderbilt University, followed by fellowship training at NYU Langone Medical Center in URPS, Male Voiding Dysfunction and Neurourology.

An NIH-funded health services researcher, she leads a lab focused on improving healthcare delivery, expanding access to care, and reducing barriers to treatment for urinary incontinence, overactive bladder, and genitourinary syndrome of menopause. Her research emphasizes patient-centered care, shared decision-making, and health equity, particularly for underserved and aging populations.

She holds national leadership roles, including Board of Directors for the Society of Women in Urology and the Western Section of the American Urologic Association. She serves as Chair of the AUA Urology Care Foundation Bladder Health Committee. She is a panel member for the AUA/SUFU Overactive Bladder Guidelines and the ICS/SUFU/AUGS Female Stress Urinary Incontinence Surgical Publication Working Group. She is also an Assistant Editor for The Journal of Urology and serves on the editorial board for Neurourology and Urodynamics.

Dr. Enemchukwu is a nationally recognized leader who has authored numerous publications, delivers invited lectures, and has been featured in major media outlets including The New York Times, The Washington Post, and The Guardian. She is the recipient of the 2025 AUA Data Science Award, the

2025 AUA Young Urologist of the Year Award, and the 2026 McGuire–Zimskind Award for significant contributions to research and leadership in pelvic medicine.

Committed to mentorship, scholarship, and clinical excellence, she advances health equity for patients with pelvic floor disorders and genitourinary syndrome of menopause, while fostering the development of the next generation of physicians and scientists. Her clinical and leadership approach emphasizes integrity, collaboration, and compassionate care.
