Research & Scholarship

CURRENT RESEARCH AND SCHOLARLY INTERESTS

Dr. Fracalanza is interested in factors underlying the development and maintenance of mood and anxiety disorders. She has conducted research on cognitive factors thought to maintain anxiety, such as intolerance of uncertainty and perfectionism. She is interested in the patient perspective, and conducting research from a qualitative lens to better understand this.

CLINICAL TRIALS

- Imaginal Exposure for Hoarding Disorder, Not Recruiting

Teaching

GRADUATE AND FELLOWSHIP PROGRAM AFFILIATIONS

- Psychiatry and Behavioral Science (Fellowship Program)
