Bio

BIO

Douglas L. Noordsy, MD, is Clinical Professor, Director of Lifestyle Psychiatry and co-founder of the Sports Psychology & Psychiatry clinic in the Department of Psychiatry & Behavioral Sciences at Stanford University School of Medicine. Dr. Noordsy was previously Professor of Psychiatry at the Geisel School of Medicine at Dartmouth. His research interests include effects of physical exercise on neurotrophic factors, brain volume and function and mental health and wellbeing. He is particularly interested in the role of physical exercise for prevention of progression of early psychosis and interactions between social and physical aspects of team sports. Dr. Noordsy is a member of the American College of Psychiatry, American College of Lifestyle Medicine and is a Distinguished Fellow of the American Psychiatric Association. He is a member of the editorial boards for Community Mental Health Journal and Mental Health & Physical Activity. Dr. Noordsy was recognized with the Exemplary Psychiatrist Award from the National Alliance on Mental Illness in 2001, and the Excellence in Leadership Award from the Department of Psychiatry & Behavioral Sciences at Stanford in 2018. He launched the Stanford Lifestyle & Sports Psychiatry Special Initiative of the Department of Psychiatry in 2024 and is seeking philanthropic partners.
