Bio

Wahila Wilkie
Program Manager, Bits & Watts Initiative, Precourt Institute for Energy

BIO

Wahila coordinates the many activities of the Bits & Watts Initiative industrial affiliate program. In this role she leads the production of Bits & Watts industry engagement events, supports the various educational programs and researchers. She enjoys meaningfully connecting people and corporations with the Stanford community to promote targeted research to find innovative solutions to power the 21st century electric grid. Prior to joining Bits & Watts, Wahila worked in the photovoltaics industry as the marketing director for a PV installation company and at Stanford in both Human Resources and Student Affairs. She holds a B.S. in Ecology from UC San Diego and M.Div. in Human Consciousness from Meru Institute.

CURRENT ROLE AT STANFORD
