Research & Scholarship

CURRENT RESEARCH AND SCHOLARLY INTERESTS

After 15 years of practice in law and technology, alongside 10 years’ teaching (part-time) at SLS, I have rekindled my interest in applied design for law and policy from my JSM thesis. In Fall 2017, I completed a second run of Negotiation by Design (DEandin 310), with Leticia Cavagnaro, PhD. By end of 2017, I will also have completed 9 deliveries of my online course, Negotiating for Professional Effectiveness, for General Electric’s in-house executive education program.

PROJECTS

• NxD: Negotiation by Design - Stanford Law School & Stanford d.school
Teaching
