

Abeynaya Gnanasekaran

Research Advisor, Mechanical Engineering - Mechanics and Computation

Bio

BIO

I am a PhD student in the Institute for Computational and Mathematical Engineering. My research interests lie in Numerical Linear Algebra and Parallel Computing. I'm working with Prof. Eric Darve on developing fast algorithms for general linear systems. I obtained my B.Tech (Honors) in Chemical Engineering from Indian Institute of Technology Madras, India.

I was born and brought up in Neyveli, an industrial town in south India. I enjoy listening to Indian music and reading novels.
