Bio

BIO

Kara Davis, D.O. is an Assistant Professor of Pediatrics in the Division of Hematology and Oncology. Dr. Davis obtained her B.A. from Pennsylvania State University and her D.O. from the Philadelphia College of Osteopathic Medicine. Clinically, she completed her training in Pediatrics at Thomas Jefferson University/A.I. DuPont Children's Hospital and her Heme/Onc fellowship at Lucile Packard Children's Hospital at Stanford. During her fellowship training, Kara worked in the laboratory of Garry Nolan, Ph.D. where she utilized single-cell, high-dimensional analysis platforms to study healthy human B cell development and B cell leukemia. Her research focuses on using single-cell analysis to organize tumor heterogeneity in pediatric cancers, especially blood cancers, as means to determine cell populations associated with clinical risks such as relapse. Clinically, Dr. Davis sees patients with leukemia and is involved with the Cancer Cellular Therapies program with experience in treating children with chimeric antigen receptor (CAR) T-cells and other immunotherapies including checkpoint inhibitors.

CLINICAL FOCUS

- Pediatric Hematology-Oncology

ACADEMIC APPOINTMENTS

- Assistant Professor - University Medical Line, Pediatrics - Hematology & Oncology
- Member, Bio-X
- Member, Maternal & Child Health Research Institute (MCHRI)
- Member, Stanford Cancer Institute

ADMINISTRATIVE APPOINTMENTS

- Vice Chair, COG Study ADVL1412, Children's Oncology Group, (2016- present)

HONORS AND AWARDS

- Anne T. and Robert M. Bass Endowed Faculty Scholar in Pediatric Cancer and Blood Diseases, Stanford Maternal and Child Health Research Institute (2018)
- Zelencik Scientist, Harriet and Mary Zelencik Endowed Fund for Faculty Support in Children's Cancer and Blood Diseases (2021)

PROFESSIONAL EDUCATION

- Fellowship: Stanford University Pediatric Hematology Oncology Fellowship (2010) CA
- Residency: AI Dupont Hospital for Children (2007) DE
- Medical Education: Philadelphia College of Osteopathic Medicine Office of the Registrar (2004) PA
- Board Certification: Pediatric Hematology-Oncology, American Board of Pediatrics (2011)
- Board Certification: Pediatrics, American Board of Pediatrics (2007)

LINKS

Research & Scholarship

CURRENT RESEARCH AND SCHOLARLY INTERESTS

To address the intrinsic heterogeneity of primary cancers, we have taken a single-cell approach to the study of cancer, particularly childhood leukemia. To organize the tremendous data generated from single-cell studies, we also seek to understand the healthy structure of the tissue of origin.

Using single-cell, high-parameter analysis platforms, especially mass cytometry, to examine primary patient samples, we seek to identify how childhood cancers diverge from their healthy tissue of origin and how cancer cells may exploit developmental states for their benefit. Further, what populations or features of tumor cells are associated with clinical outcomes of interest, such as site of disease, relapse, or drug resistance? Using this knowledge, we can further investigate new approaches to treatment for children with cancer and mechanisms of drug resistance, and with a particular interest in how this relates to immunotherapeutic approaches to cancer treatment.

CLINICAL TRIALS

- CAR-T Long Term Follow Up (LTFU) Study, Recruiting
- Nivolumab With or Without Ipilimumab in Treating Younger Patients With Recurrent or Refractory Solid Tumors or Sarcomas, Recruiting
- Phase I Dose Escalation Study of CD19/CD22 Chimeric Antigen Receptor (CAR) T Cells in Children and Young Adults With Recurrent or Refractory B Cell Malignancies, Recruiting
- Genome, Proteome and Tissue Microarray in Childhood Acute Leukemia, Not Recruiting
- Open Label, Phase II Study to Evaluate Efficacy and Safety of Oral Nilotinib in Philadelphia Positive (Ph+) Chronic Myelogenous Leukemia (CML) Pediatric Patients., Not Recruiting
- Study of Efficacy and Safety of CTL019 in Pediatric ALL Patients, Not Recruiting
- Study of Efficacy and Safety of CTL019 in Pediatric ALL Patients, Not Recruiting
- Study of Efficacy and Safety of Reinfusion of Tisagenlecleucel in Pediatric and Young Adult Patients With Acute Lymphoblastic Leukemia (ALL), Not Recruiting
- Study of Efficacy and Safety of Tisagenlecleucel in HR B-ALL EOC MRD Positive Patients, Not Recruiting
