Bio

BIO

Professor Mehrdad Shamloo has held several positions at various biopharmaceutical companies in the San Francisco Bay Area, with demonstrated extensive focus on both CNS drug discovery and pre-clinical development. In 2008, Dr. Shamloo joined Stanford University and established the Behavioral and Functional Neuroscience Laboratory (BFNL), as well as his research laboratory, which focused on the furtherment of understanding of normal and pathological brain functions in neurological disorders such as Alzheimer's disease (AD), Parkinson's disease (PD), substance use disorders and pain.

Prof. Shamloo's efforts and research are currently directed toward the neurodegenerative pathways responsible for Selective Neuronal Vulnerability of sensitive brain nuclei in the abovementioned disorders. Through these investigations, he aims to understand the processes leading to the functional and behavioral malfunction in these neurological disorders and to develop novel therapeutics to treat them subsequently. Long term, Dr. Shamloo seeks to accelerate the translation of experimental discoveries to novel therapeutic approaches, and to ultimately improve the quality of life for patients with brain disorders.

Prof. Shamloo received his doctoral degree from the Wallenberg Neuroscience Center of Lund University in Sweden.

ACADEMIC APPOINTMENTS

- Professor (Research), Neurosurgery
- Professor (Research) (By courtesy), Neurology
- Member, Bio-X
- Member, Wu Tsai Neurosciences Institute

ADMINISTRATIVE APPOINTMENTS

- Director, Behavioral and Functional Neuroscience Laboratory, (2007-2030)
- Director, Stanford Program for Integrated Neuroscience Technologies, (2022-2030)
- Program Director, Institute of Neuro-Innovation and Translational Neurosciences, (2008-2013)

BOARDS, ADVISORY COMMITTEES, PROFESSIONAL ORGANIZATIONS

- Member Student Advisor Board, Stanford University (2019 - present)
- Advisor and member, SPARK Stanford University Advisory Board (2015 - present)
- Member Bio-X, Stanford University (2014 - present)
- Faculty Advisor, School of Medicine Cores Advisory Board, Stanford University (2011 - present)
- Faculty Advisor, Advisory Board Member of Stanford Neuro Microscopy Core (2010 - present)
- Faculty Advisor, Advisory Board Member of Stanford SIM-1 Advisory Committee, School of Medicine (2010 - present)
- Faculty Advisor, Advisory Board Member of Stanford Neuro Gene & Viral Vector Core (2010 - present)

PROFESSIONAL EDUCATION

- B.S., Malmo College , Health and Science (1994)
- MS, Medical School, University of Lund, Sweden , BioMedical (1998)
- Ph.D., Faculty of Medicine, Univesity of Lund, Sweden (Wallenberg Neuroscience Research Center) , Medical Science (1999)

PATENTS

- Mehrdad Shamloo. "United States see my publication list"
- Mehrdad Shamloo. "United States see my publication list"
- Evans AK, Green Mj, Jahangir A, Shamloo M, Yi B. "United States Patent US11173144B2 Adrenergic Receptor Modulating Compounds and Methods of Using the Same", Leland Stanford Junior University, Nov 16, 2021

Research & Scholarship

CURRENT RESEARCH AND SCHOLARLY INTERESTS

My laboratory aims to better understand normal and pathological brain function so that we can contribute to the discovery of novel therapeutic approaches for neurologic disorders such as Alzheimer's disease (AD), Parkinson's disease, stroke and autism. We have focused our efforts on targets involved in neurodegenerative pathways responsible for Selective Neuronal Vulnerability of sensitive nuclei in brain in these disorders.

We have identified Beta adrenergic system as one of key player in brain function in these disorders. Beta adrenergic modulation of the inflammation, cognition and pathological progression of CNS diseases are key projects in the lab. We are studying the mechansitic basis for modulation of inflammation, pathology and cognition in these disorstds.

Teaching

COURSES

2024-25

- Workshop on Translational Behavioral Pharmacology: NSUR 244 (Sum)

2023-24

- Workshop on Translational Behavioral Pharmacology: NSUR 244 (Sum)

STANFORD ADVISEES

Med Scholar Project Advisor

Lauren Clarke

2011; 29 (2): 274-285
- **The asparaginyl endopeptidase legumain after experimental stroke** *JOURNAL OF CEREBRAL BLOOD FLOW AND METABOLISM*
Ishizaki, T., Erickson, A., Kuric, E., Shamloo, M., Hara-Nishimura, I., Inacio, A. R., Wieloch, T., Ruscher, K.
2010; 30 (10): 1756-1766
- **Human recombinant EPO reduces myocardial ischemia/reperfusion injury**
Bencsik, P., Gorbe, A., Kocsis, G. F., Csonka, C., Csont, T., Shamloo, M., Woodburn, K. W., Ferdinandy, P.
OXFORD UNIV PRESS.2010: S135
- **Comprehensive behavioral assays to enhance phenotype to genotype linkages and therapeutic screening in mouse models of Down syndrome** *FUTURE NEUROLOGY*
Shamloo, M., Belichenko, P. V., Mobley, W. C.
2010; 5 (4): 467-71
- **Vascular Regenerative Effects of Human Neural Progenitor Cells in the Ischemic Brain: A Role in Functional Recovery**
Horie, N., Bliss, T., Niizuma, K., Pereira, M., Sun, G., Keren-Gill, H., Jiang, K., Encarnacion, A., Shamloo, M., Huhn, S., Steinberg, G. K.
LIPPINCOTT WILLIAMS & WILKINS.2010: E209
- **Classical MHC I Molecules Regulate Retinogeniculate Refinement and Limit Ocular Dominance Plasticity** *NEURON*
Datwani, A., McConnell, M. J., Kanold, P. O., Micheva, K. D., Busse, B., Shamloo, M., Smith, S. J., Shatz, C. J.
2009; 64 (4): 463-470
- **Restoration of Norepinephrine-Modulated Contextual Memory in a Mouse Model of Down Syndrome** *SCIENCE TRANSLATIONAL MEDICINE*
Salehi, A., Faizi, M., Colas, D., Valletta, J., Laguna, J., Takimoto-Kimura, R., Kleschevnikov, A., Wagner, S. L., Aisen, P., Shamloo, M., Mobley, W. C.
2009; 1 (7)
- **A Mouse Model for Studying Functional Recovery from Stroke**
Pollak, J., Debsi, B., Mamer, L. E., Liu, S., Doyle, K. P., Jones, B., Shamloo, M., Buckwalter, M.
LIPPINCOTT WILLIAMS & WILKINS.2009: E214
- **NGF SIGNALING TO SECURE NEURONAL CIRCUITS**
Mobley, W., Salehi, A., Nosheny, R., Maloney, M., Zhan, K., Chial, H., Sung, K., Brown, H., Belichenko, P., Kleschevnikov, A., Shamloo, M., He, L., Valletta, et al

WILEY-BLACKWELL PUBLISHING, INC.2009: 15

- **Restoration of Hippocampally-Mediated Contextual Memory in TS65DN Mouse Model of Down Syndrome**
Salehi, A., Faizi, M., Colas, D., Valletta, J., Kleschevnikov, A., Shamloo, M., Mobley, W. C.
WILEY-LISS.2009: S63
- **Expression and function of striatal enriched protein tyrosine phosphatase is profoundly altered in cerebral ischemia** *EUROPEAN JOURNAL OF NEUROSCIENCE*
Braithwaite, S. P., Xu, J., Leung, J., Urfer, R., Nikolich, K., Oksenberg, D., Lombroso, P. J., Shamloo, M.
2008; 27 (9): 2444-2452
- **Npas4, a novel helix-loop-helix PAS domain protein, is regulated in response to cerebral ischemia** *EUROPEAN JOURNAL OF NEUROSCIENCE*
Shamloo, M., Soriano, L., Von Schack, D., Rickhag, M., Chin, D. J., Gonzalez-Zulueta, M., Gido, G., Urfer, R., Wieloch, T., Nikolich, K.
2006; 24 (10): 2705-2720
- **Comprehensive regional and temporal gene expression profiling of the rat brain during the first 24 h after experimental stroke identifies dynamic ischemia-induced gene expression patterns, and reveals a biphasic activation of genes in surviving tissue** *JOURNAL OF NEUROCHEMISTRY*
Rickhag, M., Wieloch, T., Gido, G., Elmer, E., Krogh, M., Murray, J., Lohr, S., Bitter, H., Chin, D. J., von Schack, D., Shamloo, M., Nikolich, K.
2006; 96 (1): 14-29
- **Death-associated protein kinase is activated by dephosphorylation in response to cerebral ischemia** *JOURNAL OF BIOLOGICAL CHEMISTRY*
Shamloo, M., Soriano, L., Wieloch, T., Nikolich, K., Urfer, R., Oksenberg, D.
2005; 280 (51): 42290-42299
- **Protein kinase C-gamma and calcium/calmodulin-dependent protein kinase II-alpha are persistently translocated to cell membranes of the rat brain during and after middle cerebral artery occlusion** *JOURNAL OF CEREBRAL BLOOD FLOW AND METABOLISM*
Matsumoto, S., Shamloo, M., Matsumoto, E., Isshiki, A., Wieloch, T.
2004; 24 (1): 54-61
- **Uncoupling protein-2 prevents neuronal death and diminishes brain dysfunction after stroke and brain trauma** *NATURE MEDICINE*
Mattiasson, G., Shamloo, M., Gido, G., Mathi, K., Tomasevic, G., Yi, S. L., Warden, C. H., Castilho, R. F., Melcher, T., Gonzalez-Zulueta, M., Nikolich, K., Wieloch, T.
2003; 9 (8): 1062-1068
- **Persistent phosphorylation of synaptic proteins following middle cerebral artery occlusion** *JOURNAL OF CEREBRAL BLOOD FLOW AND METABOLISM*
Matsumoto, S., Shamloo, M., Isshiki, A., Wieloch, T.
2002; 22 (9): 1107-1113
- **Subcellular distribution and autophosphorylation of calcium/calmodulin-dependent protein kinase II-alpha in rat hippocampus in a model of ischemic tolerance** *NEUROSCIENCE*
Shamloo, M., Kamme, F., Wieloch, T.
2000; 96 (4): 665-674
- **Activation of p53 and its target genes p21(WAF1/Cip1) PAG608/Wig-1 in ischemic preconditioning** *MOLECULAR BRAIN RESEARCH*
Tomasevic, G., Shamloo, M., Israeli, D., Wieloch, T.
1999; 70 (2): 304-313
- **Rapid decline in protein kinase C gamma levels in the synaptosomal fraction of rat hippocampus after ischemic preconditioning** *NEUROREPORT*
Shamloo, M., Wieloch, T.
1999; 10 (5): 931-935
- **Changes in protein tyrosine phosphorylation in the rat brain after cerebral ischemia in a model of ischemic tolerance** *JOURNAL OF CEREBRAL BLOOD FLOW AND METABOLISM*
Shamloo, M., Wieloch, T.
1999; 19 (2): 173-183

- **Activation of the extracellular signal-regulated protein kinase cascade in the hippocampal CA1 region in a rat model of global cerebral ischemic preconditioning** *NEUROSCIENCE*
Shamloo, M., Rytter, A., Wieloch, T.
1999; 93 (1): 81-88
- **Regional selective neuronal degeneration after protein phosphatase inhibition in hippocampal slice cultures: Evidence for a MAP kinase-dependent mechanism** *JOURNAL OF NEUROSCIENCE*
Runden, E., SEGLEN, P. O., Haug, F. M., Ottersen, O. P., Wieloch, T., Shamloo, M., Laake, J. H.
1998; 18 (18): 7296-7305
- **Sublethal in vitro glucose-oxygen deprivation protects cultured hippocampal neurons against a subsequent severe insult** *NEUROREPORT*
Khaspekov, L., Shamloo, M., Victorov, I., Wieloch, T.
1998; 9 (7): 1273-1276
- **Preconditioning depresses excitatory cell signaling following the second ischemic insult** *2nd International Workshop on the Maturation Phenomenon in Cerebral Ischemia - Neuronal Recovery and Plasticity*
Shamloo, M., Wieloch, T.
SPRINGER-VERLAG BERLIN.1997: 77-84
- **Effects of preischemic hyperglycemia on brain damage incurred by rats subjected to 2.5 or 5 minutes of forebrain ischemia** *STROKE*
Li, P. A., Kristian, T., Shamloo, M., Siesjo, B. K.
1996; 27 (9): 1592-1601
- **THE INFLUENCE OF INSULIN-INDUCED HYPOGLYCEMIA ON THE CALCIUM TRANSIENTS ACCOMPANYING REVERSIBLE FOREBRAIN ISCHEMIA IN THE RAT** *EXPERIMENTAL BRAIN RESEARCH*
