Bio

BIO

Dr. Deresinski received his medical degree from the University of Illinois College of Medicine and received training in Internal Medicine there and at Stanford, where he also completed a fellowship in Infectious Diseases. For 3 decades, he maintained a private practice in Infectious Disease, HIV, and Travel Medicine and was Hospital Epidemiologist at Sequoia Hospital where he also served as President of the Medical Staff for 2 years. He was also Associate Chief of the Division of Infectious Diseases and for 14 years was Director of the AIDS Program at the Santa Valley Medical Center, a Stanford-affiliated public teaching hospital. During that time he won several teaching awards at Stanford. In 1987, he founded the AIDS Community Research Consortium, serving as its Medical Director and Chairman of the Board for almost 2 decades. He was also Site Principal Investigator for the Stanford ACTU and the California Collaborative Treatment Group and has worked on AIDS education in Kampala, Uganda. Dr. Deresinski is currently Clinical Professor of Medicine in the Division of Infectious Diseases and Geographic Medicine at Stanford and is Medical Director of the Stanford Antimicrobial Stewardship Program and Chair of the Pharmacy and Therapeutics Committee and of the Specialty Drugs Subcommittee. He has special interests in antimicrobial resistance, optimal antimicrobial use, fungal infections, and infections in immunocompromised hosts.

Dr. Deresinski has published more than 100 peer-reviewed papers as well as number of book chapters. He is a Section Editor of Clinical Infectious Diseases and is a past Chair of the Infectious Diseases Society of America (IDSA) Standards and Practice Guidelines Committee as well as member of the IDSA Board of Directors. He is a member of the HIVMA, in addition to a number of other societies including SHEA and is a Fellow in the American College of Physicians as well as IDSA. He is a past winner of the IDSA Watanakunokorn Clinician of the Year Award.

CLINICAL FOCUS

- Infectious Disease
- Special interest in antimicrobial resistance, optimal antimicrobial use, fungal infections, and infections in immunocompromised hosts.

ACADEMIC APPOINTMENTS

- Clinical Professor, Medicine - Infectious Diseases

HONORS AND AWARDS

- Infectious Diseases Clinician of the Year, Infectious Disease Society of America (2011)

PROFESSIONAL EDUCATION

- Medical Education: University of Illinois Emergency Medicine Residency (1968) IL
- Board Certification: Infectious Disease, American Board of Internal Medicine (1976)
- Fellowship: Stanford University School of Medicine (1976) CA
- Board Certification: Internal Medicine, American Board of Internal Medicine (1973)
- Residency: Stanford University School of Medicine (1973) CA
- Residency: University of Illinois College of Medicine (1970) IL
- Internship: University of Illinois College of Medicine (1969) IL
