BIO

Project Manager, Information Services, at Stanford Children's Health | Lucile Packard Children's Hospital Stanford

Manage projects in the areas of revenue cycle, clinical/biomedical and technical infrastructure. Ensure success of each project from evaluation to implementation. Develop clear project goals and objectives, ensure alignment with corporate initiatives, and sufficiently understand the technology. Develop project artifacts, i.e. charter, scope, project plan, resource matrix, RAID (Risks, Assumptions, Issues and Definitions) documents, deliverables matrix, budget tracking. Communicate project status and forecast to stakeholders, and resolve issues/conflicts within project.
