#### BIO

Maya Yutsis, Ph.D., ABPP-CN is a Clinical Assistant Professor (Affiliated) in the Department of Neurology and Neurological Sciences at the Stanford University School of Medicine. She is a neuropsychologist at the Stanford Alzheimer's Disease and Research Center (ADRC), Stanford Concussion and Sports Medicine Clinic, and Neuropsychology Service. She received her doctorate in clinical psychology at the Palo Alto University in 2009, completed an APA approved clinical internship in neuropsychology at the Minneapolis VA Medical center and a two-year post doctoral fellowship in Clinical Neuropsychology at the Mayo Clinic in Rochester, MN in 2011. She received her board certification in Clinical Neuropsychology through the American Board of Professional Psychology. Prior to coming to Stanford, she worked as a lead neuropsychologist at the Veterans Affairs Palo Alto Polytrauma Transitional Rehabilitation Program and Geriatric Research Education and Clinical Center (GRECC) Telehealth Neuropsychology clinic and served as a director/preceptor of an APA-approved post-doctoral fellowship Neuropsychology Emphasis Area training program. She is currently a Newsletter Editor of the Society for Clinical Neuropsychology, APA Division 40. Her research interests focus on computerized assessment and interventions for persons with acquired brain injury, sport-related concussion, and mild cognitive impairment (MCI).
