

Julia E. Noel, MD

- Clinical Assistant Professor (Affiliated), OHNS/Head & Neck Surgery Divisions
- Staff, OHNS/Otolaryngology/Head & Neck Surgery

Bio

BIO

Dr. Noel is a head and neck surgeon with fellowship training in endocrine surgery and board certification in otolaryngology. She is an assistant professor in the Department of Otolaryngology — Head & Neck Surgery at Stanford University School of Medicine.

She specializes in surgery of the thyroid and parathyroid glands and lymph nodes. She has additional expertise and training in minimally invasive treatment approaches and ultrasound-guided techniques performed in the office, such as Radiofrequency Ablation (RFA) and alcohol ablation.

Among the many conditions she treats are thyroid cancer, thyroid nodules, hyperthyroidism, hyperparathyroidism, hypercalcemia, Grave's disease, and goiter.

For every patient, Dr. Noel prepares a personalized care plan that is comprehensive and compassionate. Her goal is to educate and empower each patient to achieve the best possible health and quality of life. Patient reviews praise her clinical expertise as well as her skills as a listener and communicator.

Dr. Noel conducts a robust research program to advance patient care. She has published extensively on the diagnosis, appropriate management, and optimization of outcomes for patients with thyroid and parathyroid disorders. Her articles have appeared in JAMA Otolaryngology Head and Neck Surgery, Nature Communications, Endocrine Practice, and many more peer-reviewed journals. She has co-authored numerous guideline and consensus statements, including an international statement on the use of RFA in benign and malignant thyroid nodules.

She serves as associate editor of the endocrine section for the journal Laryngoscope Investigative Otolaryngology. She is additionally an editorial board member for VideoEndocrinology, a video journal covering leading-edge diagnostic and treatment techniques and technologies.

Dr. Noel has made presentations to her peers at national and international meetings of the American Academy of Otolaryngology, Head & Neck Surgery, American Thyroid Association, American Head & Neck Society, and the World Congress of Thyroid Cancer. She also has shared her insights into the future of thyroid surgery at the International Thyroid Cancer Survivors' Conference.

She is a member of the American Academy of Otolaryngology and Head and Neck Surgery, American Head and Neck Society, American Thyroid Association, American Association of Clinical Endocrinologists, and American College of Surgeons.
