### Research & Scholarship

---

#### CURRENT RESEARCH AND SCHOLARLY INTERESTS

My research examines the nature of self and identity, often in the context of academic motivation and achievement. I'm interested in social factors relevant to motivation, in stereotypes and group differences in school achievement, and in social-psychological interventions to raise achievement and narrow group differences.

### Teaching

---

#### COURSES

##### 2021-22

- Belonging in a Diverse Society: PSYCH 11N (Aut)
