

Jacqueline Marie Vogel

- Masters Student in Earth Systems
- Student Advisor, Earth Systems Program

Bio

BIO

Jacqui is a coterminal Masters student in Earth Systems, focusing on climate change, oceans, and environmental policy. Since coming to Stanford, she has explored both the science and policy aspects of environmentalism through research and internships at the World Wildlife Fund, Hopkins Marine Station, and the California Ocean Protection Council. She plans to continue her study of the connections between climate change and coastal protected areas through the MUIR Fellowship and Masters thesis work with the Stanford Center for Ocean Solutions.

Outside of her academic interests, Jacqui enjoys hiking, yoga, listening to podcasts, vegan food, and any activities that involve the ocean.
