

Stanford

Ved Topkar

- MD Student, expected graduation Spring 2021
- Ph.D. Student in Biophysics, admitted Autumn 2018
- MSTP Student

Bio

BIO

I apply our lab's cutting-edge RNA structure determination methods to decipher RNA transport specificity in oligodendrocytes. More generally, I am interested in how structure modulates mRNA localization, stability, and translation in eukaryotic cells.

EDUCATION AND CERTIFICATIONS

- Bachelor of Arts, Harvard University , Chemical and Physical Biology (2016)

STANFORD ADVISORS

- Rhiju Das, Doctoral Dissertation Advisor (AC)
