Leilani L Conradson

Business Operations Mgr 2, SLAC National Accelerator Laboratory

Bio

BIO

Leilani Conradson serves as the Manager of the User Program Office at the Linac Coherent Light Source (LCLS), a U.S. Department of Energy Office of Science User Facility operated by Stanford University. Her office is the principal liaison between LCLS and its community of over 1,000 international researchers who visit annually to conduct experiments. Leilani holds a BA in Chemistry and brings over 24 years of experience in user facility administration, both as a user and as a manager. Prior to her current role, she worked at the Los Alamos National Laboratory in New Mexico, serving as a program manager and experiment coordinator since 1999. She is now based at the SLAC National Accelerator Laboratory in Menlo Park, California.
