Affiliate, Rad/Body Imaging

Bio

BIO

I have over 15 years of experience in both academic and industrial settings with over 60 publications and patents. I have focused on various aspects of medical imaging (MRI, Ultrasound, PET/CT, Optical), bio-sensing and wearables, signal/image processing, machine learning, deep learning, and medical device development for many different projects. I have PhD in Biomedical Engineering and also completed two different fellowships in Biomedical and Radiology and Oncology, followed by tenure-track faculty position at Johns Hopkins University School of Medicine. I have also appointed with other primary and adjunct faculty appointments in ECE and BME in the past.
