

Angela K. Lumba-Brown

- Clinical Associate Professor, Emergency Medicine
- Clinical Associate Professor (By courtesy), Neurosurgery
- Clinical Associate Professor, Pediatrics

Bio

BIO

Angela Lumba-Brown, MD, is a recognized physician leader and clinician-scientist in pediatrics and emergency medicine at Stanford University, nationally, and internationally. She is an academic pediatric emergency medicine physician with expertise in injury, neuroscience, and neurocritical emergencies. She is a graduate of the Stanford Leadership Development Program as well as the Stanford Center for Compassion and Altruism, and she uses these skills in addition to formal training in mindfulness and meditation to support her patients, colleagues, and community.

Clinically, Dr. Lumba-Brown had cared for children and young adults in the pediatric emergency department and is board-specialized in pediatric emergency medicine. She is an Associate Professor of Emergency Medicine and Pediatrics, and by courtesy of Neurosurgery. Dr. Lumba-Brown is the former Associate Vice Chair of the Department of Emergency Medicine.

Dr. Lumba-Brown is an international expert on traumatic brain injury and has led several large clinical care guidelines, as well as successful federally and non-federally funded research. She is a two-times appointee to the Board of Scientific Counselors for the Centers for Disease Control's (CDC) National Center for Injury Prevention and Control, a federal advisory committee. She is also an appointee to the former Pac-12 Brain Trauma Task Force, guiding research and policy in athletes with head injury. Dr. Lumba-Brown held elected leadership positions in the Society for Academic Emergency Medicine (SAEM) and the American Academy of Pediatrics, Section on Emergency Medicine. Internationally, she oversees head injury policy, advising the Ontario Neurotrauma Foundation and co-leading world experts developing new guidelines on penetrating traumatic brain injury.

As former Director of the Emergency Medicine Clinical Research Unit, Dr. Lumba-Brown oversaw all departmental prospective human subjects research in emergency settings, including internal and external research partners. She has a formal focus on research innovation and partnership development that leverages the bioscience and biotech hubs of the University and region.

Dr. Lumba-Brown co-directed the Stanford Brain Performance Center for 7 years, leading in advancing the neuroscience of development, injury, and aging through prevention, novel biomarker discovery and other diagnostics, and treatments.

Dr. Lumba-Brown's work has been highlighted by Stanford Magazine, NPR, the New York Times, the Washington Post, Scientific American, as well as other national outlets.

Dr. Lumba-Brown is also a leader formally trained in compassion, mindfulness, and meditation. She is a graduate of the Stanford Center for Altruism and Compassion's year long applied compassion training. She is also a formally trained yoga and meditation instructor, currently ending an 2-year training under the leadership of Jack Kornfield and Tara Brach.

ACADEMIC APPOINTMENTS

- Clinical Associate Professor, Emergency Medicine
- Clinical Associate Professor (By courtesy), Neurosurgery
- Clinical Associate Professor, Pediatrics
- Member, Wu Tsai Human Performance Alliance
- Member, Maternal & Child Health Research Institute (MCHRI)

ADMINISTRATIVE APPOINTMENTS

- Board of Scientific Counselors, Centers for Disease Control and Prevention, (2021- present)
- Clinical Research Unit Director (faculty), Stanford Emergency Medicine, (2022- present)
- Associate Vice Chair, Department of Emergency Medicine, Stanford University, (2021-2023)
- Co-Director, Stanford Brain Performance Center, (2018- present)
- Brain Trauma Task Force, Pac-12, (2021- present)
- Research Director, Stanford Brain Trauma Evidence-Based Consortium, (2017-2019)

HONORS AND AWARDS

- Defense and Veterans Brain Injury Center's Coin honoree, US Department of Defense
- Health Equity Scholar, Academy of Communication in Healthcare
- SAEM Leadership Forum Scholarship, Society of Academic Emergency Medicine
- Recognition of Leadership Service Award recipient, American Academy of Pediatrics
- Triple Crown Award, St. Louis Children's Hospital, Children's Direct Emergency Medicine Services

BOARDS, ADVISORY COMMITTEES, PROFESSIONAL ORGANIZATIONS

- Appropriateness Criteria Committee Member, American College of Radiology (2023 - present)
- Elected Bylaws Member, Society for Academic Emergency Medicine (2022 - present)
- Editorial Board, Frontiers in Neurology: Neurotrauma (2020 - present)
- Mild TBI Definition Expert Consensus Group, American Congress of Rehabilitation Medicine (2019 - present)
- Editorial Board, Journal of the American College of Emergency Physicians (2019 - 2021)
- Chair, Committee for the Future, Section on Emergency Medicine, American Academy of Pediatrics (2015 - 2017)
- Workgroup to Improve the Clinical Care of Youth with Mild TBI, Centers for Disease Control and Injury Prevention (CDC) (2011 - present)

PROFESSIONAL EDUCATION

- Board Certification, American Board of Pediatrics , Pediatric Emergency Medicine (2013)
- PEM Fellowship, University of California San Diego, Rady Children's Hospital , Pediatric Emergency Medicine (2012)
- Board Certification, American Board of Pediatrics , General Pediatrics (2009)
- Residency, New York Medical College, Maria Fareri Children's Hospital , Pediatrics (2007)
- Internship, New York Medical College, Maria Fareri Children's Hospital , Pediatrics (2006)
- Medical Doctor (MD), St. George's University Medical School , Medicine (2006)

COMMUNITY AND INTERNATIONAL WORK

- Ontario Neurotrauma Foundation
- Stanford Sports Concussion Summit
- CDC Head Up Educational Materials

PATENTS

- Vijay Lumba, Irwin Wunderman, Mearl Naponic, John Missanelli, Angela Lumba. "United States Patent US 20040082842 Lumba VK, Wunderman I, Naponic M, Missanelli J, Lumba AK. "System for Monitoring Fetal Status" Patent US 20040082842. April 2004.", Vijay Lumba, Apr 29, 2004

Research & Scholarship

RESEARCH INTERESTS

- Brain and Learning Sciences

CURRENT RESEARCH AND SCHOLARLY INTERESTS

Dr. Lumba-Brown is a specialty-trained, board-certified pediatric emergency medicine physician working clinically in the Stanford Emergency Department and co-directing the Stanford Brain Performance Center.

Her research focuses on traumatic brain injury and brain performance. Dr. Lumba-Brown's previous scholarly work include: a prospective, double-blinded, randomized controlled trial evaluating therapeutic intervention in acute pediatric concussion (Peds Em Care 2014); complicated mild TBI risk score development (Pediatrics and others 2017); and a large systematic review and CDC guideline publication (JAMA Peds and others 2018); concussion subtype classification (Neurosurgery 2019 and others). Her current areas of active research include investigations of diagnosis, management, and therapeutic intervention in traumatic brain injury, subtype classification of concussion, and the pre-hospital management of mild-severe TBI. She also studies brain performance via sensorimotor and sensory-cognitive synchronization to address attentional impairments.

CLINICAL TRIALS

- Hypertonic Saline as Therapy for Pediatric Concussion, Not Recruiting
