

Jaime B Seltzer

Affiliate, Biochemistry - Genome Center

Bio

BIO

Jaime Seltzer is a researcher with Stanford Medicine working with the Synder Lab and at the Stanford Genome Technology Center.

Seltzer is also the Scientific Director at #MEAction for the infection-associated chronic illnesses ME/CFS (myalgic encephalomyelitis/chronic fatigue syndrome) and Long COVID.

She is responsible for project management for clinical and research-associated projects and fostering communication between research scientists, clinicians, and people with infection-associated chronic illness. Ongoing projects: Society to Improve Diagnosis in Medicine-funded work to transform ME/CFS treatment and diagnosis at Mayo Clinic Rochester; Symptom Cluster Characterization in Complex Chronic Disease; multiple ongoing medical education initiatives. Leading institutional outreach for MEAction's Teach ME, Treat ME campaign.
