Bio

BIO

Dr. Subak is a board-certified gynecologist in the Gynecology Clinic at Stanford Health Care. She is fellowship trained in urogynecology and pelvic surgery. Dr. Subak is chair of the Department of Obstetrics and Gynecology at Stanford University School of Medicine. She is also a Katharine Dexter McCormick and Stanley McCormick Memorial Professor, professor of obstetrics and gynecology and, by courtesy, of urology.

Her clinical interests include female pelvic medicine, general gynecology, and LGBTQ+ health. Dr. Subak is the founding director of the LGBTQ+ Health Program at Stanford Health Care. She is committed to providing compassionate and affirming care to people of all gender identities and sexual orientations.

Dr. Subak is an award-winning researcher who has conducted extensive studies on female reproductive health and urologic function. Her primary research focus is identifying interventions to reduce urinary incontinence in females. Her research group pioneered studies of weight loss as a treatment for incontinence. The research group also investigates novel interventions for female incontinence, such as slow-paced breathing, yoga, and mobile health apps.

Dr. Subak has published more than 100 articles in prestigious peer-reviewed journals. Most of these articles focus on urinary incontinence, the association between weight and urinary incontinence, and new treatments for urinary incontinence. Her research has appeared in journals such as the American Journal of Obstetrics and Gynecology, JAMA Internal Medicine, The Journal of Urology, and The New England Journal of Medicine. She also wrote book chapters on several topics, including the economics of urinary incontinence.

She is a member of the American College of Obstetricians and Gynecologists (ACOG), the Association of Professors of Gynecology & Obstetrics (APGO), the American Urogynecologic Society (AUGS), the Council of University Chairs of Obstetrics and Gynecology (CUCOG), and the International Continence Society (ICS). Dr. Subak has served on many committees focused on incontinence at AUGS, the National Institutes of Health (NIH), and the International Consultation on Incontinence (ICI), which is sponsored by the World Health Organization (WHO) and the ICS.

CLINICAL FOCUS

- Urogynecology
- Female Pelvic Medicine and Reconstructive Surgery

ACADEMIC APPOINTMENTS

- Professor - University Medical Line, Obstetrics & Gynecology
- Professor - University Medical Line (By courtesy), Urology
- Member, Maternal & Child Health Research Institute (MCHRI)

ADMINISTRATIVE APPOINTMENTS

- Chair, Department of Obstetrics and Gynecology, Stanford University, (2017- present)
- Katharine Dexter McCormick and Stanley McCormick Memorial Professor, Stanford University School of Medicine, (2017- present)
- Professor of Obstetrics and Gynecology and, by courtesy, of Urology, Stanford University School of Medicine, (2017- present)

HONORS AND AWARDS

- Distinction in Mentoring Award Nominee, University of California San Francisco (UCSF) Academic Senate (2015, 2016)
- Outstanding Faculty Award in Medical Student Teaching, UCSF Department of OBGYN & RS (2010, 2011, 2013, 2014)
- Women's Health Foundation Medical Activist Award, Women's Health Foundation (2009)
- Mid-Career Investigator Award in Patient Oriented Research (K24), National Institute of Diabetes and Digestive and Kidney Diseases, National Institutes of Health (2008, 2015)
- Honoree, UCSF Chancellor's Committee on the Status of Women, UCSF, Chancellor (2002)
- UCSF Women's Reproductive Health Research Career Development Scholar,, National Institute of Child Health and Human Development (NICHD), NIH (2000)
- Rolex Achievement Award for outstanding career achievements and contribution to society, College Golf Foundation (1996)
- Outstanding Resident Consultant, UCSF Department of Obstetrics, Gynecology & Reproductive Science (1994)
- Julius R. Krevans Award for Clinical Excellence, UCSF (1991)
- Green Key Honor Society, Dartmouth College (1982)

BOARDS, ADVISORY COMMITTEES, PROFESSIONAL ORGANIZATIONS

- Member, Committee on the Socio-Economic Impact of Urinary Incontinence, WHO and International Continence Society, 1st to 6th International Consultation on Incontinence (1998 - present)
- Executive Committee, NIDDK International Collaborative Research Group on Bladder Dysfunction (2003 - 2007)
- Co-Chair, NIDDK Research Symposium: Urologic Outcomes of Diabetes & Obesity (2008 - 2009)
- Member, NIH.NIDDK, Urologic Diseases in America External Expert Panel (2016 - present)
- Member, Advisory Board, UCSF-Kaiser Permanente Urological Epidemiology Research Career Development Program (K12) (2017 - present)

PROFESSIONAL EDUCATION

- Board Certified, American Board of Obstetrics and Gynecology (Diplomate) (1997)
- Fellowship: University of California San Francisco (1997) CA
- Fellowship: UCSF - Veterans Administration Medical Center (1997) CA
- Fellowship, University of California, San Francisco (UCSF) and San Francisco Veterans Affairs Medical Center (SFVAMC) , Epidemiology & Clinical Research (1997)
- Fellowship, UCSF and SFVAMC , Urogynecology and Pelvic Reconstructive Surgery (1997)
- Residency: University of California San Francisco (1995) CA
- Residency, University of California, San Francisco , Obstetrics & Gynecology (1995)

- Certificate, UCSF , Advanced Training in Clinical Research (1996)
- MD, Stanford University School of Medicine , Medicine (1991)
- AB, Dartmouth College , Earth Sciences, Economics (1983)

Research & Scholarship

CURRENT RESEARCH AND SCHOLARLY INTERESTS

My multidisciplinary research program is focused on lower urinary tract function and genitourinary health in women, including (1) the effect of weight loss and physical activity on urinary incontinence (UI) and overactive bladder (OAB), (2) epidemiology of female lower urinary tract and pelvic floor disorders (UI, OAB, pelvic organ prolapse, sexual dysfunction, and fecal incontinence), (3) the association of race/ethnicity with pelvic floor disorders and their treatment, (4) development of novel treatments for UI (weight loss, yoga, slow-paced respiration, mobile health app delivery), and (5) economics, health-related quality of life, and cost-effectiveness of treatments for pelvic floor disorders.

CLINICAL TRIALS

- A Group-Based Therapeutic Yoga Intervention for Urinary Incontinence in Ambulatory Older Women, Recruiting
- Lessening Incontinence Through Low-impact Activity, Recruiting
- Program to Overcome Pelvic Pain Study, Not Recruiting
