

## Marla (McPherson) Glass

Postdoctoral Research Fellow, Transplantation Surgery

 NIH Biosketch available Online

 Curriculum Vitae available Online

---

### Bio

#### BIO

My primary research focus is on regulatory immune cell phenotypes in organ transplant recipients. I'm applying high-dimensional single cell proteomics to identify the immune cell types that affect development of and outcomes in EBV-associated B cell lymphomas in transplant recipients.

#### PROFESSIONAL EDUCATION

- Doctor of Philosophy, University of California Davis (2016)
- Bachelor of Science, University of Connecticut (2010)

- Transplant Immunology Lab: <http://web.stanford.edu/group/TIL/>
- ORCID ID: <https://orcid.org/0000-0003-3763-0842>

---

### Research & Scholarship

#### LAB AFFILIATIONS

- Olivia Martinez, Transplant Immunology (3/20/2017)

---

### Teaching

#### GRADUATE AND FELLOWSHIP PROGRAM AFFILIATIONS

- Immunology (Phd Program)

---

### Publications

#### PUBLICATIONS

- **Dual blockade of the PI3K/Akt/mTOR pathway inhibits posttransplant Epstein-Barr virus B cell lymphomas and promotes allograft survival** *AMERICAN JOURNAL OF TRANSPLANTATION*
