## Scott Alan Elrod

Associate Director, Licensing, Office of Technology Licensing (OTL)

### Bio

---

#### BIO

Dr. Scott Elrod is Associate Director at the Stanford Office of Technology Licensing. Prior to joining Stanford, he was Vice President at the Palo Alto Research Center, where he led a division focusing on inkjet printing, biomedical systems, additive manufacturing, metamaterials and cleantech. Elrod also directed the Environment, Safety, and Health (ESH) Division at SEMATECH, a consortium of semiconductor manufacturers, and co-wrote a chapter on the semiconductor industry's ESH performance. Elrod received his A.B. degree in Physics from Earlham College (1981) and his Ph.D. in Applied Physics from Stanford University (1985). While at Stanford, he built the world's first low-temperature tunneling microscope. He holds 65 patents.
