Theresa Lii, M.D.

- Resident in Anesthesiology, Perioperative and Pain Medicine
- Graduate, Stanford Center for Professional Development

Bio

BIO

Theresa Lii, M.D., is currently an anesthesiology resident at Stanford and is part of the Stanford Fellowship in Anesthesia Research (FARM) program. Her research interests include evaluating the effectiveness of opioid-sparing pharmacologic treatments as well as exploring the impact of rapid-acting psychiatric interventions for patients with acute and chronic pain.

CLINICAL FOCUS

- Residency
